3. The candidate's height will be measured as follows.—He will be placed against the standard with his feet together, and the weight thrown on the knee and nail on the toes or outer side of the foot. He will stand erect without raising, and with the back, neck, buttocks and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be recorded in inches and parts of an inch to quarters.

4. The candidate's chest will be measured as follows.—He will be made to stand erect with his feet together, and to raise his arms over his head. The tape will be so adjusted round the chest that its upper edge touches the inferior angle of the shoulder-blades behind, and its lower edge the upper part of the nipples in front. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to depress the tape. The candidate will then be directed to take a deep inspiration several times, and the maximum expansion of the chest will be carefully noted.

The minimum and maximum will then be reported in inches, $\frac{1}{4}$, $\frac{1}{2}$, etc.

In reporting the measurements, fractions of less than half an inch should not be noted.

5. The candidate will also be weighed and his weight recorded in pounds. Fractions of a pound should not be noted.

6. The examination for determining the acuteness of vision includes two tests—one for distant, the other for near vision. The Army Test type will be used for the test for distant vision, without glasses, at a distance of 20 feet, and for the test for near vision, without glasses, at any distance selected by the candidate. The standards of the minimum acuteness of vision with which a candidate will be credited are as follows:—

STANDARD I.

Right eye. Left eye.
Distant vision.—V = 20, V = 20.
Near vision.—Reads 6, 4. Reads 6, 4.

STANDARD II.

Right eye. Left eye.
Distant vision.—V = 20, V without glasses = not below 400; and after correction with glasses = not below 200.
Near vision.—Reads 6, 4. Reads 1.

STANDARD III.

Right eye. Left eye.
Distant vision.—V, without glasses = not below 400; and after correction with glasses = not below 200.
Near vision.—Reads 6, 4. Reads 1.

Each eye must have a full field of vision as tested by hand movements.

Sprint as any marked condition of the eyes or of the state of either eye liable to the risk of aggravation or interference will cause the rejection of the candidate.

Each eye will be examined separately, and the lids must be kept wide open during the test.

Inability to distinguish the principal colours will not be regarded as a cause for rejection, but the fact will be noted in the proceedings and the candidate will be informed.

The degree of easiness of vision of all candidates for commissions will be entered in the proceedings in the following manner:—

V.R. =; with glasses =; Reads....

V.L. =; with glasses =; Reads....

No relaxation of the standard of vision will be allowed.

7. The following additional points will then be observed:—

(a) That his hearing is good and there is no sign of ear disease;

(b) That his speech is without impediment;

(c) That his teeth are in good order. He must have ten sound teeth in the upper jaw functionally equal in ten sound teeth in the lower jaw. Two of these teeth in each jaw must be molars. Well-filled teeth will be considered as sound;

(d) That his chest is well formed and that his lungs and heart are sound;

(e) That he is not ragged.

(f) That he does not suffer from a severe degree of varicose or in various veins. A candidate who has been successfully operated on will be accepted.

(g) That his limbs are well formed and developed.

(h) That there is free and perfect motion of all the joints.

(i) That his feet and toes are well formed.

(j) That he does not suffer from any infectious skin disease.

(k) That he has no recognized malformation or defect.

(l) That he does not bear traces of previous scabs or chronic diseases pointing to an impaired constitution.

* Severe varicose is defined as follows:—

(1) Where the mass of veins are great that it hangs down in front of the limb when the candidate stands up.

(2) If the mass is enlarged to such an extent that the limb hangs at a free, ordinary level, then, second, at worst, sufficient for the fact that the limb hangs in a way at a lower level than the right.

(3) If there is plenty to such an extent that the affected limb is increased at least one half of the bulk of the good on the same side.

(4) Unsoundness of teeth does not only be considered a disqualification when treated under the hospital should be at the hospital only.

No. 78.—The Government have had under consideration the policy of granting a special pay of Rs. 10 for typists, typewriting clerks and stenographers qualified by the advanced test or higher grade examination in typewriting. They consider that it is no longer necessary to offer this special increment. They, therefore, deem that the special pay of Rs. 10 for advanced test or higher grade examination shall cease to be bestowed on all future entrants to the post of typewriting clerk or stenographer, and also to new entrants who have not passed the higher grade examination but who are hereafter promoted to the higher grade examination in typewriting.

In inviting attention to this office circular letter No. T.M. 56-1-1923, dated 29th October 1923, on the above subject, I have the honour to observe that, in a number of cases, the head of concern sent in the certificate furnished in receiving the bill of the

Telephone Company duly accepting the charge, in either monthly or bi-monthly and the same were forwarded to the company in getting in their bills something to major heads of concern. I would accordingly request that, instead of sending the head of concern in the certificate, the major, the minor and the detailed head of concern in which the amount of the bill is chargeable, be promiscuously sent in up to the top of the bill, so that the Telephone Company may not be obliged in grouping their bills according to major heads of concern.

Before compliance within the time specified, the amount money may be forfeited, and in the event of withdrawal they will also be liable to pay any difference between the price accepted and the price actually obtained by the Jail. The amount money received from successful bidder or tenders will be taken towards their security deposits and those from others returned at the close of the auction.

3. The Inspector General reserves the right to accept or reject any bid or tender without assigning any reason.

9. During the prevalence of plague in the vicinity of the Jail or in that of the area from which supplies are drawn, all prices, etc., will be liable to be fixed subject to the same outside before being taken in; also, if for any other reason, the Superintendent considers expedient of articles to his authority.

For repeated infringement of the stipulations of the contract another punishable offence, he may also award it, recovering all losses occasioned by the Jail in consequence of the contractor's failure to supply deposited by the contractor or other tender due to them and, in the event of any residue, by legal means if so advised.

12. All wastage found to occur in excess of the respective percentages specified in the schedule will have to be made good by the contractors.

3. The Superintendent reserves the right to accept or reject any bid or tender without assigning any reason.

4. Contracts should not be sublet.

5. Any notes accepted and contracts entered into will be subject to confirmation by the Inspector-General of Prisons, Outstations, whose decision shall also be final in all questions of infringement.

6. As the quantities given against each article in the schedule are only approximate, the contractor will be under an obligation to supply the entire requirements during the period of contract, plus so much as may be needed to last for a whole month thereafter, provided, in respect of the extra quantities, that written orders are given within a fortnight of the termination of the agreement. At the same time, the Superintendent does not bind himself to receive the quantities or numbers noted in the schedule if they are not required.

7. No article is to be supplied to the Jail except on a requisition signed by the Superintendent or some responsible person authorized by him in writing to do so 'by order'.

8. No advance of cash will on any account be made to the contractor when giving orders, nor will the Jail pay freight or other charges on consignments to be afterwards deducted from bills, but payment for articles delivered at the Jail on order will be made promptly after they have been inspected and passed. Contractors must submit to receive payment of their bills in whole or in part to which and some funding part of the same due to such bill will be charged, unless they contract a finance equivalent to half a rupee or more when they will be treated as whole rupee for the purpose of the contract.

9. During the prevalence of plague in the vicinity of the Jail or in that of the areas from which supplies are drawn, all goods, etc., will be liable to be lost exposed to the air outside before being taken in. Also if for any other reason the Superintendent considers expedition of articles to the men necessary.

10. Contractors are required (under a penalty not exceeding Rs. 25) to incurably send with each supply, a memorandum or advice note, duly signed, showing the number or quantity ordered for acceptance. Also to sign and return within a week of payment by cheque, cash order or remittance transfer receipts, all accepted bills forwarded by the Superintendent for the purpose. Questions in connection with any supposed short payment may be referred to the Superintendent separately, but are not to be made an excuse for delay or refusal to sign.

11. In addition to any difference in prices that may be verifiable from contractors on account of purchase rendered necessary elsewhere by failure, neglect or refusal on their part to supply according to the terms of their agreements, a fine not exceeding Rs. 50 may be levied at the discretion of the Superintendent for each and every such case of default. For repeated infringement of the regulations of the contract or for other justifiable reasons, he may also award, in consequence of losses attributable by the Jail in consequence of the embezzlement from the security deposited by the contractor or other modes due to them and, in the event of any recidivism, by legal measures, if so advised.

12. All wastages found to occur in course of the respective percentages permitted in the schedule will have to be made good by the contractor.

13. Further information on any point concerning this notification can be had from the Jail office.

14. When once the rates offered at an auction or by tender have been accepted, lower quotations from the offers to the Superintendent or to the Inspector-General of Prisons will not be considered.

Report of Select Committee on Indian Income Tax (Amendment) Bill	10
Legislative Assembly Bill No. 15 of 1922—Indian Tax Bill (Amendment)	30
Council of State Bill No. 4 of 1922—Indian Income Tax (Amendment)	32

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 15 of the Indian Legislative Rules.

The following Report of the Select Committee on the Bill further to amend the Indian Income-tax Act, 1922, for certain purposes was presented to the Legislative Assembly on the 13th February 1922:—

We, the undersigned, Members of the Select Committee to which the Bill further to amend the Indian Income-tax Act, 1922, for certain purposes was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

Clause 2.—We have enlarged the scope of the proposed new clause (a) of sub-section (4) of section 10, by making it cover all animals which die or become useless, and not only such animals when they have been injured. We have done this as it frequently happens that dead or useless live stock is not sold for some time. We have also deleted the words "or valuable" as this restriction is small and difficult to apply.

As regards the new proviso proposed in sub-clause (f) of clause 2, we find a conflict of principles. The proviso is designed to maintain the principle that the sphere of taxation of the Central Government should not be encroached upon by Local Governments or local authorities—a principle which we support. But its application in the form of the new proviso will involve an invasion of another principle—

which we also suggest—that "double taxation" should be avoided. An illustration will be where a hotel authority imposes a rate on the house in accordance with a proposed firm on the profits made by that firm. It is admitted that if another method of assessment were employed, the firm would be entitled to deduct the sum so arising out of its profits. But under the system as now proposed the firm will not be allowed to make this deduction, but will have to pay income tax on the amount it has paid as rate. We consider that in the matter the persons of the Central Government must be protected, and that the proper method of avoiding inequitable treatment is to prevent both Local Governments and local authorities from imposing taxation either directly upon or assessed on the basis of profits. We have, therefore, retained this principle, but we make a recommendation to Government to take all measures within its power to see that no local tax should be assessed on profits.

Class 4.—This has been redefined in order to simplify the provisions, and make it easier for the assessors.

It is not now proposed to require notice to be given to the Income-tax Officer of the partners of a Hindu undivided family. It is left to those concerned to represent to the Income-tax Officer at the time of assessment that such a partition has taken place. The Income-tax Officer is then to hold an enquiry into the fact of partition after serving notice upon all the members of the family. He will embody the result of his enquiry in a final order before proceeding to make the assessment. Any person who is aggrieved by the manner in which the assessment has been made as the result of such an order will, of course, be able to raise the point in an appeal under section 26 to the Assistant Commissioner in the ordinary way, and if he is dissatisfied with the order passed as such an appeal on a point of law, he will have the right to obtain a reference to the High Court under section 43. It has also been pointed out that the rule which states that the original joint family has been dissolved shall be jointly and severally liable for that portion of the tax which falls on the house owned by the family while it was still joint.

Class 5.—We have redefined the whole of this clause, partly in order to simplify it, and partly in order to bring it into accord with the latest decision of the Privy Council.

As regards the proposed sub-section (3) of section 24, which incorporates and gives effect to the law contained in the proviso to section 24 of the Act, it was pointed out that for some time in the Bombay Presidency the rule of law contained in the Motion upon (L.L.R. 47 Bom. 204) has been applied, which adopted the alternative principle to that embodied in the new sub-section, and that the change of law in the Bombay Presidency might result in some individual being taxed according to different principles at different times, and to his detriment. The Government has undertaken to issue no time limitation to prevent any hardship from this cause, and we therefore do not propose to make any special statutory provision.

As regards new sub-section (5), the original draft had to make a choice between the principle contained in the case of Messrs. Begg, Sutherland & Co., Ltd. (L.L.R. 47 All 714) and that contained in a judgment of the Bombay High Court in the Western India Turf Club case (L.L.R. 20 Bom. 218); and the former principle was chosen. Some time, however, the Bombay decision has been upheld by Their

3. We think that the Bill has not been so altered as to require re-consideration, and we recommend that it be passed as now amended.

MINUTES OF DISSENT.

We, the undersigned, are not satisfied with the Select Committee's decision merely to drop the proposed clause 7 (J) in the amended Bill leaving the original clause 42 (J).

In the notes on the amendments before the Select Committee under clause 7, Government state that the clause is intended to remove doubts just that they desire to make clear that in respect of export trade or import trade, whether the business be conducted by a resident or a non-resident, all profits arising or arising or *accruing* in *direct* *trade* are liable to tax and *as also* profits are *or* *accruing* in *direct* *trade* are liable to tax and *as also* profits are *or* *accruing* in *direct* *trade* are liable to tax. In removing the original proposed clause 7 (J) the Government state that they propose to carry out their intention by rules and the following information as to their intention was obtained:—

In the event of an exporter in India sending cotton regularly to a merchant abroad who as his task obtains a profit by selling in a foreign country, the Government consider that this profit obtained in a foreign country has accrued or arisen through an agent in British India and is liable to tax.

This would mean that the merchant in India might be deemed under section 42 (J) to be his agent, on the ground of having a business connection with a foreign buyer, and will be required either to obtain from the foreign firm a return of the profit made in the foreign country on the cotton bought from India, or will be assessed on the basis of the difference of value between export price and *f.o.b.* or *c.i.f.* value at the time of shipment or by some similar method. He will be made to pay the assessed tax to the Government and will have to look for his reimbursement to his foreign client.

We consider that this procedure will entail great hardship on Indian merchants exporting cotton and that the clause should be amended as hereafter suggested to prevent such action.

It was further brought to the notice of the Committee that the taxation authorities were, under the present law, endeavouring to

issues a foreign operator in stocks and shares working through a broker in India on the London Stock Exchange for the on profits made on the London Stock Exchange even though none received in India.

In our opinion the existing powers of the Government are too wide owing to the words "from any business transaction". As Government claims that their desire is to tax only profits arising or arising or received in India, we do not understand why Government desire powers wider than are necessary for the purpose stated.

We suggest substituting for the original section 45 (1) the following sentence:—

"45. (1) All profits or gains accruing or arising to any person residing out of British India, whether directly or indirectly, from any trade carried on or transacted in British India by any agency or branch in British India on his behalf shall be chargeable to income-tax under the head 'business' and shall be charged in the name of the agent of such person, and such agent shall be deemed to be for all purposes of this Act the person in respect of such income-tax."

Provided that any amount of tax may be recovered also in accordance with the provisions of this Act from any agent of a non-resident person who lives or may at any time come within British India."

If these drastic functions would only be leviable where profits actually accrue or arise in British India and any profits obtainable or received in other countries would not be assessable.

We know of no precedent in any other country for the proposed legislation, and are convinced that it will only penalise Indian firms while it can easily be evaded by foreign firms operating through agencies in British India.

We should be prepared to support legislation requiring all branches and agencies of foreign firms in any Indian income-tax on profits, such profits to be assessed on the basis of the normal profits which could be expected by an Indian firm selling similar goods. We are entirely opposed, however, to the proposal that Government should make rules to enforce rights which, in our opinion, it was never the intention of the Legislature to confer on the Central Board of Revenue.

I disagree with the principle of clause (10) which will become section 45 (5) in the Act, because, if passed, it will give complete approval to the principle of taxing in India the whole profit received in India on the sale of an imported article, and the clause, therefore, rejects the principle approved by the Revenue Enquiry Committee, of taxing only the "manufacturing" profit and not the "manufacturing."

profit. It is criticised by Government that there is no incentive of expending the levy, but of charging it, and that there has always been the power to fix all profits in India. This is true, but the power has not regularly been exercised presumably because it was considered unreasonable to do so. A share of the total profit must in equity be regarded as accruing and arising in the country of manufacture. Mr. Darling, an Income tax Officer of great experience, gives his opinion that it is unfair to tax the whole profit as imports.

I am therefore of opinion that the opportunity should have been taken by the Legislature to revoke the law in accordance with the recommendations of the Indian Taxation Enquiry Committee.

HUGH G. COCKER,

VECTOR BARROOM,

W. S. LAMIE.

We, the undersigned, object to clause 2 (b) of the Bill as being entirely inoperative to the revenue.

It is admitted by Government that local authorities have the right to charge for services rendered and that such charges are a valid deduction from the gross profits in ascertaining the assessed amounts for income-tax.

The Government of India wish to discourage local Bodies from being themselves charged for such charges on the profits of an assessee as such action would be on the principle that the Central Government should be entitled to levy taxes on income.

To this end they by this clause lay down that where local Bodies have their ascertainable charges for services rendered, on profits, the assessee concerned will not be a deductible item from the profits, whereas if the charges for the same services were to be made in some other manner the deduction would be permissible.

The assessee would find themselves in the helpless position of not being able to raise what local Bodies seek to lay from them nor, to choose the basis on which their assessments should be made.

If this clause be passed, it is not unlikely that local Bodies will continue to charge for services rendered as before as their position remains unchanged, so that the Central Government will be receiving an income from the unfortunate assessee in which they are not in equity entitled on the general principle that payment for services rendered is a deductible item as not computed.

We are not in disagreement with Government that there should be only one tax based on profits, but we feel very strongly that this clause fails to establish that principle and sets up the new principle that the tax-payer may fairly be punished for the action of an authority over whom he has no voice or control.

It is up to the Central Government to introduce specific legislation which will prevent any authority but themselves from levying a tax on profits.

The amount recovered at present was stated in the Select Committee to be about 14 lakhs.

We take the very general view of the proposal which would be set up by putting this clause and deem it our duty to draw the attention of the Assembly to the serious aspect of the issue involved.

We regret that in dealing with clause 7 the Committee failed to agree upon a solution of the difficulties arising out of the application of section 32 of the Income-tax Act, 1922, in regard to the taxation of agency profits arising out of the purchase of goods for export from India. We are however anxious for the present to leave the Act as it stands, pending further experience of the administrative problems which it raises.

STATEMENTS OBJECTS AND REASONS.

The object of this Bill is to give effect to certain minor amendments which it is proposed to make in Schedule II to the Indian Tariff Act, 1894 (VIII of 1894). The more important proposals in the Bill are dealt with *mutatis mutandis* below. They are included in a separate Tariff Bill issued in the Finance Bill, because they have not been made primarily with reference to the revenue of 1926-27.

3. *Chalks and other white materials of which no other substance is derived from other sources than such as have, which are chemically identical with*

alkaloids extracted from suchous bark. It may be mentioned, for example, that the chemical constitution of quinine whether prepared from a cinchona bark alkaloid or arbores and alkaloids is the same.

3. *Gold and silver sheets and plates*.—It is proposed to remove the import duty of 25 per cent on gold and silver sheets and plates which have undergone no process of manufacture subsequent to rolling and to include them under item 22 of the Import Tariff. These articles are raw materials of an industry, and it is considered desirable that they should, in accordance with the recommendations of the Fiscal Commission, be admitted free of duty. Gold bullion and silver bullion are already free, and the process of rolling adds but slightly to the value of the bullion. It is also proposed to amend items 122 and 123, so as to make it clear that the amended items do not cover gold and silver leaf.

4. *Paper money*.—It is proposed to place currency notes and the like on the free list. They are at present assessable to duty at 10 per cent on their intrinsic value based at the 1 per hundred rate. But imports of Government securities are already exempt from duty under a notification issued under section 22 of the New Customs Act. Imports by post have also hitherto been exempted by executive provision, which ought to be regularised, and import as cargo as private mail is free.

5. *Illustrations specially made for binding in books*.—Illustrations for books are imported free under item 24 of the Import Tariff when they are bound in a book. But they are assessable to duty at 25 per cent under item 124 if they are imported separately. A certain class of illustrations cannot be produced in India, but have to be imported and bound up in the book or journal after arrival. The inevitable effect of a high duty on such illustrations when imported separately is to drive publishers to have the whole book printed or produced abroad when the illustrations will be allowed to enter free as part of the book. In order to remove this anomaly, a notification under section 22 of the New Customs Act was issued in September 1927 exempting such illustrations from the duty leviable on them under item 124. It is now proposed to place this exemption on a statutory basis.

6. *Steel prepared as for and made up*.—The importations of steel metal have in the past been very small, so that from the revenue point of view the duty of 15 per cent to which it is subject under item 112 is negligible. The Government of Madras having experienced that certain local bodies in the Madras Presidency experienced great difficulty in obtaining locally good metal for their roads and that the present duty varied more or less as a prohibitive duty on the import of good metal from Ceylon, a notification was issued in December last exempting from import duty steel made up as for and made up. It is now proposed to place this exemption on a statutory basis.

7. *Specimens illustrative of natural objects*.—Only specimens illustrative of natural objects are at present admitted free of duty under item 21 of the Tariff. It is considered that the item is unduly restrictive and that it should be extended so as to include models and wall diagrams for illustration of natural objects.

8. *Corned*.—By a notification under section 22 of the New Customs Act, the import duty leviable on corned under item 47 of

the Import Tariff was reduced to Rs. 1-4-0 per cent. This reduction was made to carry out a *modus vivendi* with Durban, by which complete and unconditional most-favoured-nation treatment was secured for all Indian goods of importation into that country. It is now proposed to incorporate this rate in the law.

9. *White Fertiliser cement*.—The specific duty of Rs. 8 per ton on Portland cement was fixed in 1925 with reference to the then existing duty of 15 per cent and tariff valuation of Rs. 53 per ton. It has been brought to notice that the incidence of the specific duty on White Fertiliser cement, a recognised secondary used for special purposes such as repairing and joining masonry, making tiles and similar brick and plaster and stucco work, is much below 15 per cent ad valorem, the landed cost of the article being Rs. 155 per ton. It is accordingly proposed to amend item 48 C of the Tariff so as to make it possible to levy a duty of 15 per cent on such cement.

10. *Silver plated surgical instruments*.—Under the Import Tariff nickel plated surgical instruments are assessable to duty at 15 per cent (item 11) and silver plated surgical instruments at 25 per cent (item 128). But before it can be determined whether a surgical instrument is silver plated or nickel plated, it is necessary to test such an instrument. By far the greater proportion of imported surgical instruments and appliances are, however, nickel plated. In order, therefore, to avoid inconvenience to the customs administration, and justified by previous considerations, and the testing of three *dentula* instruments, a notification under section 51 of the Sea Customs Act was issued in August 1926, exempting silver plated surgical instruments from so much of the Import duty as was in excess of 15 per cent. It is now proposed to place this exemption on a statutory basis.

11. *Wool, hair and man-made fibre*.—In its report on the question of tariff equality in regard to the manufacture of wool, hair, cotton and man-made fibre in India the Tariff Board has recommended that a duty of 5 per cent ad valorem should be imposed on imported wool, wool hair and man-made fibre. The Government of India have accepted this recommendation. They have, however, found it impossible to accept the Board's proposal that the duty on black printing should be removed, but they have decided that the duty on wool hair yarn should be reduced from 15 per cent to 5 per cent instead of 5 per cent as recommended by the Board. It is proposed to give effect to these changes in the proposed Bill.

12. The amendments are intended to come into effect from the seventh day after the Bill becomes law.

The 29th February 1928.

G. RAJY.

The following Bill was introduced in the Council of State on the 14th February 1928:—

COUNCIL OF STATE BILL No. 2 OF 1928.

A Bill further to amend the Indian Securities Act, 1925, for certain purposes.

Whereas it is expedient further to amend the Indian Securities Act, 1925, for the purpose hereinafter appearing; It is hereby enacted as follows:—

1. This Act may be called the Indian Securities (Amendment) Act, 1928.

and title

1. To section 4 of the Indian Securities Act, 1922, the following ^{Amendment} sub-section shall be added, namely:—

- "(d) For the purposes of this section, a body incorporated under the Indian Companies Act, 1913, or the Co-operative Societies Act, 1912, or any other enactment for the time being in force which within or without British India, relating to the incorporation of associations of individuals, shall be deemed to be when it is dissolved."

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to enable a company to hold Government securities jointly with a private individual or another corporate body and to empower Government to pay the amount of the security to the surviving joint-holder in any case that may arise.

Section 4 (1) (c) of the Indian Securities Act, 1922, lays down that when a Government Security is payable to two or more persons jointly, and either or any of them dies, the security shall be payable to the survivors or survivor of those persons. Though by virtue of section 3 (25) of the General Clauses Act, 1897, "person" includes a company or association or body of individuals, whether incorporated or not, this definition has been held to be inapplicable to section 4 (1) of the Indian Securities Act, as a corporation or association may be dissolved but cannot die and there can, therefore, be no survivorship as contemplated in the latter section. Thus the Act so it stands involves the possibility of a Government promissory note being held by a corporate body jointly with an individual or with another corporate body. The position as regards joint ownership of this nature was the same in England before the passing of the Indian Companies (Joint Tenancy) Act, 1920.

In accordance with the above view of the law, Government and the Public Debt Office have been treating as invalid all endorsements on Government promissory notes in favour of a company jointly with an individual. The Public Debt Office, however, has been advised on more than one occasion by corporate bodies regarding the advisability of joint ownership of Government securities on the lines recognised by the law in England, and the Controller of the Currency has reported that instances of such endorsements are coming to his notice and that he has been compelled to treat them as invalid. The Bill proposes to remove this technical difficulty by an amendment of section 4 of the Indian Securities Act, 1922.

The 26th February 1925.
